

Capacity Fee Schedule

Installation and fee cost to be borne by property owner

All costs and expenses specific to the installation and connection of the building sewer shall be borne by the owner. The owner shall indemnify to the Taney County Regional Sewer District, hereinafter referred to as the "District", from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

Capacity Fees

- A. All new commercial construction applying for a sewer connection permit shall pay a one-time capacity fee for the use of the District's collection system at a cost of seven dollars and forty cents (\$7.40) per gallon per day of estimated wastewater flow.
- B. The capacity fee for all residential units, such as single-family residences, each half of duplex residences, apartment units, condo units, boarding houses, and mobile homes shall be one thousand five hundred dollars (\$1,500.00). Condo units with lockout rooms will have an additional two hundred fifty dollar (\$250.00) charge.
For all connections requiring a grinder pump to transport sewage from the structure to the sewer main, the owner shall assume the responsibility of operation and maintenance of the grinder pump themselves. Any unit that is connected to the District's low-pressure system must be of a type and design as approved by the District.
- C. The District, in accordance with the following criteria, shall determine the connection fee for all other types of buildings, and/or new construction: (The following uses, after all flows are calculated in gallons per day, shall be multiplied by the current rate which will equal the connection charge; exclusive of industrial waste.)

COMMERCIAL FACILITIES			
TYPE	FLOW (GPD)	TYPE	FLOW (GPD)
TERMINALS (AIRPORTS, BUS, RAILROAD, ETC.)	5 / PASSENGER	MOTEL/HOTEL/RESORTS WITH COOKING FACILITIES	175 / ROOM

Commercial & Industrial Facilities not listed above (domestic wastewater only)

15 gpd/employee times current rate/gpd or total square foot divided by 400 times 15 gpd times current daily rate/gpd.

- D. The applicant may request a variance from the District from the flow contributions if sufficient documentation is provided to justify a lower contribution and if approved by the District.
- E. The capacity fees collected in accordance with this Section shall be placed in an account entitled, "Capacity Fee Account," and shall be used only for the specific purpose of design and construction of wastewater plants and/or expansion. The balance of the account shall be invested to earn maximum allowable interest.
